DECLARATION OF PRESIDENTIAL ELECTION RESULTS ON 9TH DECEMBER 2020

She said: "At the end of the transparent, fair, orderly, timely and peaceful Presidential Elections, the total number of valid votes cast was 13 Million 4 hundred and 34 thousand, 5 hundred and 74 (**13,434,574**) representing 79% of the total registered voters.

DECLARATION OF PRESIDENTIAL ELECTION RESULTS ON 9TH DECEMBER 2020

This figure of **13,434,574** becomes the basis of the percentages of the presidential candidates' performance in the Elections

DECLARATION OF PRESIDENTIAL ELECTION RESULTS ON 9TH DECEMBER 2020

She said: "Nana Addo Dankwa Akufo Addo of the NPP obtained **6,730,413** being **51.295%** of the total valid votes cast.

This figure of 51.295% cannot be correct if it is based on the total valid votes cast already given as **13,434,574**.

From this total valid votes cast, Nana Addo Dankwa Akufo Addo's percentage should be $6,730,413 / 13,434,574 \times 100\% = 50.098\%$ and not the **51.295 declared**

DECLARATION OF PRESIDENTIAL ELECTION RESULTS ON 9TH DECEMBER 2020

She said: "John Dramani Mahama of the NDC obtained **6,214,818** being **47.366%** of the total valid votes cast.

This figure of 47.366% cannot be correct if it is based on the total valid votes cast already given as **13,434,574**.

From this total valid votes cast, John Dramani Mahama's percentage should be $6,214,818 / 13,434,574 \times 100\% =$ **46.260%** and not the **47.366** declared

DECLARATION OF PRESIDENTIAL ELECTION RESULTS ON 9TH DECEMBER 2020

This applied to all the other ten (10) candidates on the ballot paper. The percentages attributed to them was not correct if the total valid votes cast is (**13,434,574**)

The ten (10) other Presidential candidates results declared:

GUM's % should be **0.786%**
and not the 0.805% declared

CPP's % should be **0.091%**
and not the 0.093% declared

GFP's % should be **0.041%**
and not the 0.042% declared

GCPP's % would remain same
at **0.027%** as declared

APC's % should be **0.053%**
and not the 0.054% declared

LPG's % should be **0.057%**
and not the 0.059% declared

PNC's % should be **0.081%**
and not the 0.083% declared

PPP's % should be **0.051%**
and not the 0.052% declared

NDP's % should be **0.049%**
and not the 0.050% declared

IND's % should be **0.072%**
and not the 0.074% declared

DECLARATION OF PRESIDENTIAL ELECTION RESULTS ON 9TH DECEMBER 2020

Totalling all what the percentages should have been based on the total valid votes cast and the valid votes attributed to all the Presidential Candidates, the total percentage will be:

$$(50.098+46.260+0.786+.00091+0.041+0.027+0.053+0.057+0.081+0.051+0.049+0.072)\% = 97.67\%$$

DECLARATION OF PRESIDENTIAL ELECTION RESULTS ON 9TH DECEMBER 2020

This total percentage of 97.67 cannot be correct because it is less than 100%

Hence the results declared cannot be correct based on the total vote cast of **13,434,574 given by the Chairperson of the Electoral Commission in her Speech on 9th December 2020**

DECLARATION OF PRESIDENTIAL ELECTION RESULTS ON 9TH DECEMBER 2020

The results did not include Techiman South total voter population of 128,018

If this figure is added to the total valid votes cast given by the EC Chairperson as 13,434,574, the resultant total valid vote cast will be: $13,434,574 + 128,018 = \mathbf{13,562,592}$

In this case if all the votes of Techiman South is added to John Dramani Mahama, Nana Addo Dankwa Akufo Addo's votes will remain the same and his percentage would be $6,730,413 / \mathbf{13,562,592} \times 100\% = \mathbf{49.625\%}$ Which is less than 50%

The Chairperson of the Electoral Commission inadvertently used 13,433,573 as the total valid votes cast. The total valid votes cast is 13,119,460.

This does not change the percentages stated for each candidate and the declaration made by the Chairperson.

The Chairperson of the Electoral Commission inadvertently used 13,433,573 as the total valid votes cast. The total valid votes cast is 13,119,460.

This does not change the percentages stated for each candidate and the declaration made by the Chairperson.

The Chairperson of the Electoral Commission inadvertently used 13,433,573 as the total valid votes cast. The total valid votes cast is 13,119,460.

This does not change the percentages stated for each candidate and the declaration made by the Chairperson.

The ten (10) other Presidential candidates results declared:

Party	Votes Obtained	Votes %	Party	Votes Obtained	Votes %
GUM	105,548	0.805	LPG	7,683	0.059
CPP	12,200	0.093	PNC	10,882	0.083
GFP	5,574	0.042	PPP	6,849	0.052
GCPP	3,564	0.027	NDP	6,549	0.050
APC	7,138	0.054	IND	9,704	0.074

Total Valid Votes Cast was given as 13,119,460. With this figure, the percentages given are not correct.

There were differences in the votes recorded in this Press Release as obtained by the various Presidential Candidates compared to the declaration made on 9th December 2020.

Note also that the total vote cast was given in her first declaration on the 9th of December as 13,434,574; and her subsequent declaratory statement on 10th December was 13,433,573: a difference of 1,001 votes.

This means there is a new introduction of third figure of 13,433,573 as the total vote cast; making it three different figures given officially as the total vote cast, which is fundamental in calculating the percentage of votes gained by each candidate.

Party	9 th Dec	10 th Dec Votes	Diff.	
NPP	6,730,413	6,730,587	+174	NPP figures increased by 174
NDC	6,214,889	6,213,182	-1,707	NDC figures reduced by 1,707
GUM	105,565	105,548	-17	GUM figures reduced by 17
CPP	12,215	12,200	-15	CPP figures reduced by 15
GFP	5,575	5,574	-1	GCP figures reduced by 1
GCPP	3,574	3,564	-10	GCPP figures reduced by 10
APC	7,140	7,138	-2	APC figures reduced by 2
LPG	7,690	7,683	-7	LPG figures reduced by 7
PNC	10,887	10,882	-5	PNC figures reduced by 5
PPP	6,848	6,849	+1	PPP figures increased by 1
NDP	6,612	6,549	-63	NDP figures reduced by 63
IND	9,703	9,704	+1	IND figures increased by 1

- The above table exposes the fundamental changes made on the absolute number of votes cast for each candidate in EC Chairperson's declarations dated 9th December, 2020 and her subsequent declaratory statement issued on 10th December.
- The above fly in the face of paragraph 2 of her statement issued on the 10th of December, 2020 "This does not change the percentages stated for each candidate and the declaration made by the Chairperson."
- As per the analysis above, there is a fundamental change in the absolute figures of votes cast for each candidate contrary to the quote above, which definitely has resulted in changes in percentage through a subtle subtraction of 1707 votes from candidate John Dramani Mahama of the NDC, and various subtractions from other candidates except the PPP and Independent Candidate who had additions of 1 each; candidate Nana Akuffo Addo of the NPP had an increase of 174 votes cast.
- This is how the EC achieved the figures upon which candidate Nana Akuffo Addo was declared the winner of the election of the 7th December, 2020.

THANK YOU
